

About Us

This is a partnership between two independent companies — Alaska Glacier Elopements and Matanuska Glacier Retreat — united by one shared valley and one shared belief: that this landscape is made for love stories.

Though we operate separately, we've come together because this place, with its glaciers, mountains, and endless sky, deserves to be part of your day. Whether by helicopter or at our venue, we've built two ways to say "I do" here, so however you imagine your elopement, we can hold it.
